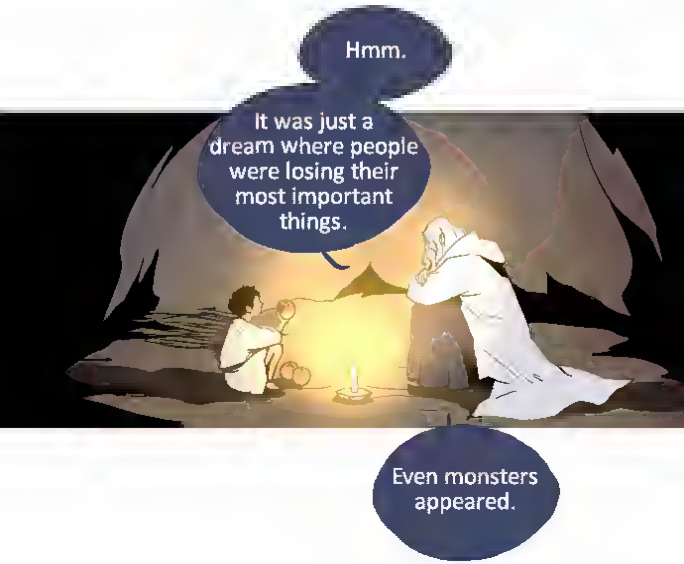
Did you have fun
Of course!
Today was the funnest day ever!
Is that so...
Because Lord Lessa was constantly smiling
Was I.
Of course.
You had said that you couldn't smile like humans did.
It's very...
Wonderful to see.

LESSA

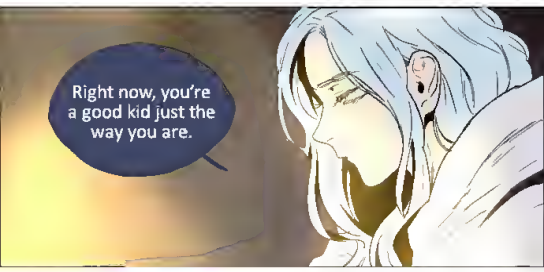
THE CRIMSON KNIGHT

What kind of dream did you have?
Are you curious.

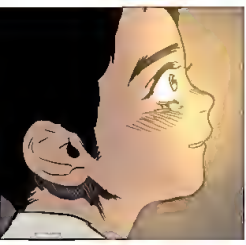


Hmm.
It was just a dream where people were losing their most important things.
Even monsters appeared.

Lord Lessa, you're scared of monsters too?
...rather than that,
I was more scared of losing my important things.
Ares.
Please grow up into a good adult.
Sir?
Okay~
grin
You're talking about an adult who will share bread with the weak, right?
It doesn't have to be exactly that.
Just... live being loving just the way you are.

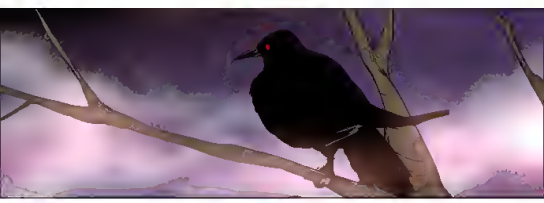


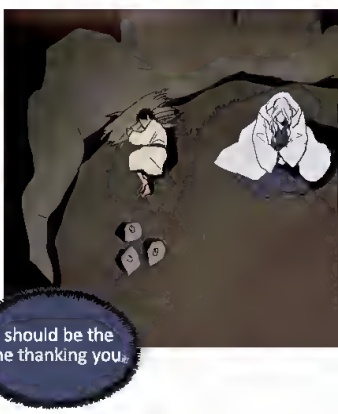
Right now, you're a good kid just the way you are.



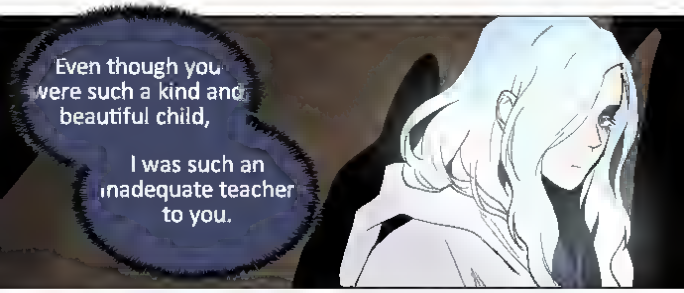
...okay.

Thank you...





I should be the one thanking you.



Even though you were such a kind and beautiful child,
I was such an inadequate teacher to you.

I won't turn you into a monster like that again.

And I was going to try to be a good teacher this time...
You...

You're just playing with my heart!

Shh-
It's not fake.
It's just a distortion of you and Ares' time.
What...?

It's real...?

Everything here...?

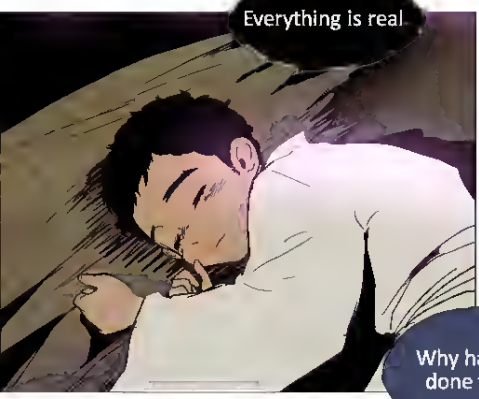
Yes

So don't cry pitiful goat

The future Ares

And this small Ares

Everything is real



Why have you done this...?

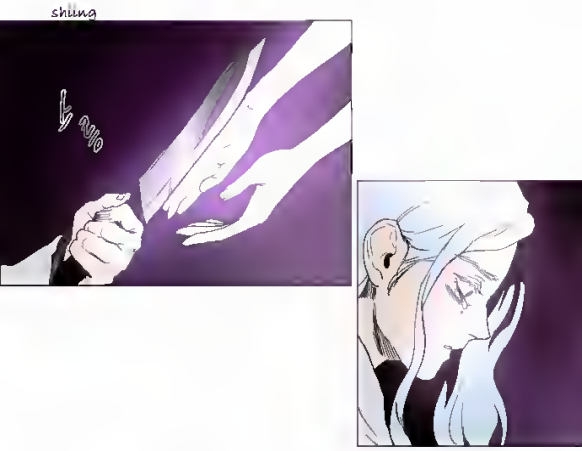
Look. Because you gave me a present

flutter

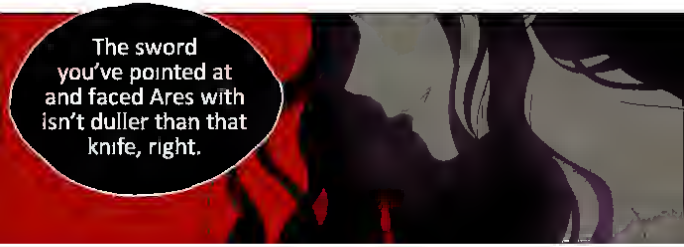
I, too, have given you a present

A chance to change the future.

But...
Unfortunately, there isn't much time.



Tomorrow, when the sun rises, you and Ares will return to reality.



The sword you've pointed at and faced Ares with isn't duller than that knife, right.

Season 2 100th chapter Special

Season 2 has already piled up to a 100

I wondered what I should do, but I couldn't figure out your ever-changing-throughout-the-year, trendy needs

So!
I will take this chance to try to clarify simply one of the most commonly received questions about the world of 'Lessa'

I never made a separate Story Corner due to worries about restricting the readers' freedom of interpretation

So just read this for fun!

The year 2002.

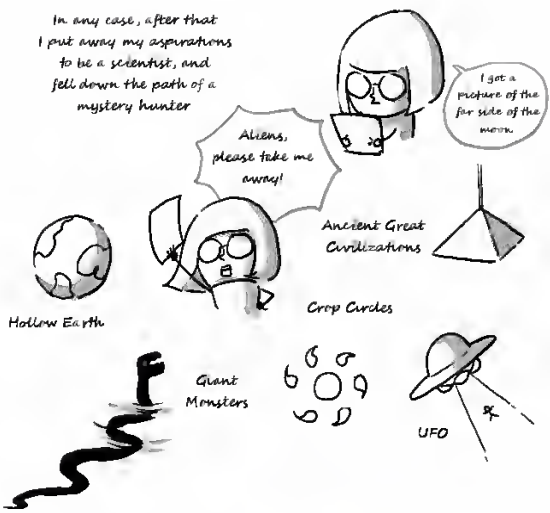
Pogo,
13 years old

I, who had encountered the internet for the first time, developed an enormous interest in the universe for the first time

Pogo, what do you want to be when you grow up?

ASTRONOMER

I couldn't forget those words
Thinking it was a truth I'd realize
when I became an adult, I put away
that dream (tears)



In any case, after that
I put away my aspirations
to be a scientist, and
fell down the path of a
mystery hunter
I got a picture of the far side of the moon.
Aliens, please take me away!
Ancient Great Civilizations
Hollow Earth
Crop Circles
Giant Monsters
UFO

The universe is filled
with interesting things As time
passes and we learn more,
everything points to one curiosity

Why does this story have to go back to your elementary days
Please wait
Black hole
Dark matter
The end of the universe
The birth of the universe

In those days, I delved into
almost all the documentaries

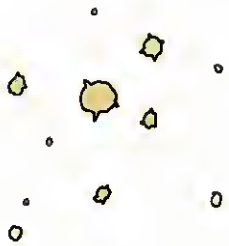
However, there is limit to what you can learn through the normal public media.

I already knew this too...

When will technology catch up...

On top of that, the universe was too big and humanity was too young.

But soon, I learned about the existence of a universe smaller than the universe.



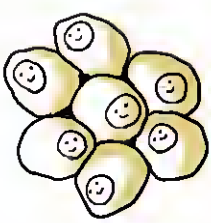
My hand right here that is, in this hand too, there is another universe.

I made a universe on canvas...

Just kidding.

The mechanisms of everything are not very different.

I felt that the cell unit that make up the body was like a world, and the even smaller particles were like the universe's stars.



So soon I started studying the genome, and in the process, I also studied about the many characteristics of the cancer cell.

They were like demons to me.

Please stop trying to force it

In any case, I continued traveling into the shrinking unknown

molecule

atom

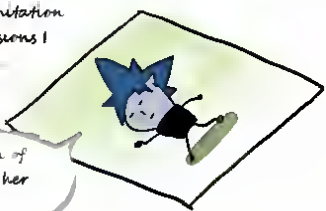
quark

super string theory etc

Along the way, I finally encountered a dimensional wall.

I studied higher dimensions, and spent time gaining insight into several viewpoints

In the process, I experienced a limitation of the 3 dimensions I resided in



The limitation of imagining higher dimensions

2D

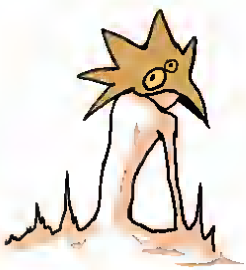
3D

4D

*A non-spatial temporal spatial concept

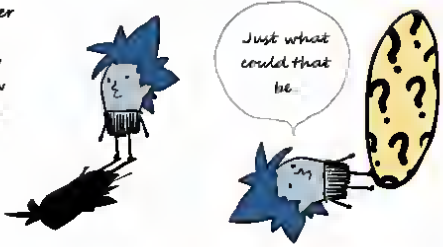
Without another axis, I could not imagine the structure of 4 dimensions

Back then I used to imagine the transcendent bodies that lived in that world



Just as Plato said
we might be the shadows of the 4th dimension...

Couldn't our world naturally follow the form of a higher dimension? Just like how my 2D shadow resembles me...



The higher dimension in Lessa is the same.

'Gods that resemble humans'

That is the motto of the world view in Lessa.

Through the process of representing the microscopic world through the macroscopic requires much consideration, it is also the most enjoyable part.

Though I might seem studious, the reality is...

Rather...

a bed bug.

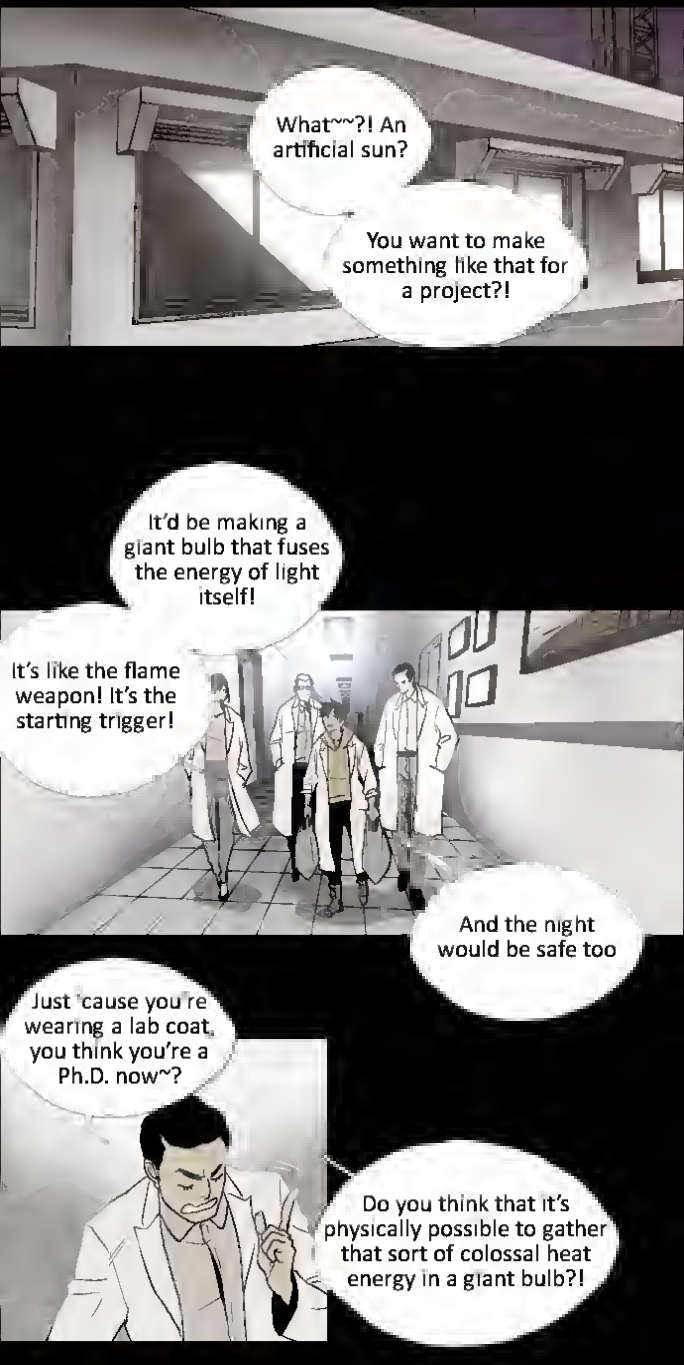
BGM has been inserted.

Have you still not heard anything about your mother?
No.
If we do hear back, Mister, as her laboratory colleague, would probably be the first to know.
Since she went missing in the laboratory

Even so, how could you leave your house?
Your father must be worried.
No
'Cause he kicked me out saying he's working on those weapons.
He isn't even helping to look for Mom...



What~~?! An artificial sun?
You want to make something like that for a project?!
It'd be making a giant bulb that fuses the energy of light itself!
It's like the flame weapon! It's the starting trigger!
And the night would be safe too
Just 'cause you're wearing a lab coat, you think you're a Ph.D. now~?
Do you think that it's physically possible to gather that sort of colossal heat energy in a giant bulb?!

Hooh... That actually sounds pretty good?
If different fields just help out...

Hello. I am Pogo.

We find ourselves at the end of the season epilogue already.

(After drawing the above picture representing my agony and anguish it's quite repulsive looking at now ㅠ_ㅠ But since not much time is left I'll just try to use it.)

Season 2 was much longer than Season 1 and the prologue put together.

During a time when even 2 years can change the rivers and mountains, I want to thank you all who've read to the end.

Actually right now with only 1 hour left until the deadline, I've met with some difficulty
I had wondered what to do for the epilogue, so I was planning on doing a QnA of useless and trivial questions

But the questions...

When will Lessa and Raynald start dating

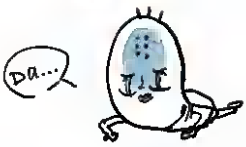
Not even just trivial,
it's gone off to Andromeda...



I tried plucking the answerable questions.

Q: Any plans for a book?
A: I request of the all publishers looking at this. I've suffered in the flames of hell from similar questions these past 4 years. (An answer for questions including those about an anime production, a movie production)
Why are you crying?
I had a dream...
A sad dream?
No... I dreamt a dream... about Lessa becoming a movie...
Then why are you crying?
That is... because it's a dream that will never happen...

Q: The author's favchar (favorite character) in Lessa?
A: From the story point of view, it always changes. But when drawing, the ones I draw with much love. Ra, Rabiel, the difficult ones. Lessa, Lucy.

Q: When Rano farts, do flaming farts come out?
A: No, but I have heard that putting a lighter to a fart will make it catch fire. If while Rano was letting one rip, by chance he also was using his power, I think that there could possibly be a brief flame in that area.

Q: What does Ra normally do? (What is his daily schedule?)
A: He investigates humans with his god eyes. And so he sits.

Q: How tall is Ra?
A: His true body has no concept of height. His human form is around 176cm.

Q: How old is Lexter?
A: Baby face Lexter is quite difficult. ㅠ_ㅠ He is an adult. His height is around 170cm.

Q: Lessa's height, weight, ideal type, etc, specs
A: Height is around 172cm, weight is around 55kg~58kg, ideal type... I don't think Lessa has thought about it either.

Q: When Lessa woke up from his sleep, who cut his hair?
A: A hairstylist employed by Ares cut it for him, but Ares stood by the side and instructed how much to cut.

I thank everyone who submitted questions.
This is the end of QnA. ^0^

[Lessa Season 3] will return at earliest, in 6 months, latest, in 1 year.
I know it might feel like a long time, but just as those who worried about me thought, it's due to my body not being well in various ways.
I will return after taking care to get completely better.

I want to thank
HOOPA who always comes running when I ask for help,
Jakenly who was in charge of 3D backgrounds,
Deview, Squar who made me music,
editors who gave me strength,
my author collegues, and my mother

Above all, I love you,
my dear readers who enjoyed my work.

-POGO-

An eternal death.

It was the first since
the birth of the world.

We can't do this!
Let's try pleading again...!
Even god would definitely rethink it!
Gabriel-! Just let it go!
You don't feel anything, brother?!
Incinerating a soul...!
Are you saying that child's sin is that great!
.....

Whether or not what that child did was intentional, it endangered the order of the world.
We have no choice but to follow Lord Ra's decision.
squeeze
꽉
For thousands of years...
We watched over that soul...
Are you saying that the will of heaven is this cruel...?

Gather your tears.
Tender hearted emissary...
Brother Mikael...
It's not something we can undo without a great sacrifice.
I will send off that child and return.
Do you not think it's unfair?

whoooosh...

Since you don't even have the chance to atone or have a new life like other souls

Do you not think it's unfair?
.....

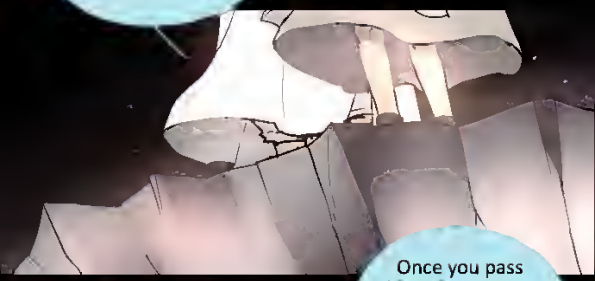
Is this the end of the world?

That is correct

휘이이

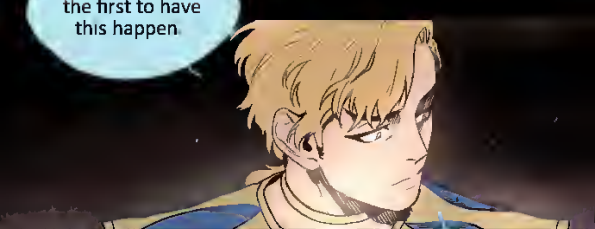
whoooosh

Even though we don't know what's beyond this



Once you pass this point, you can never return back to the world

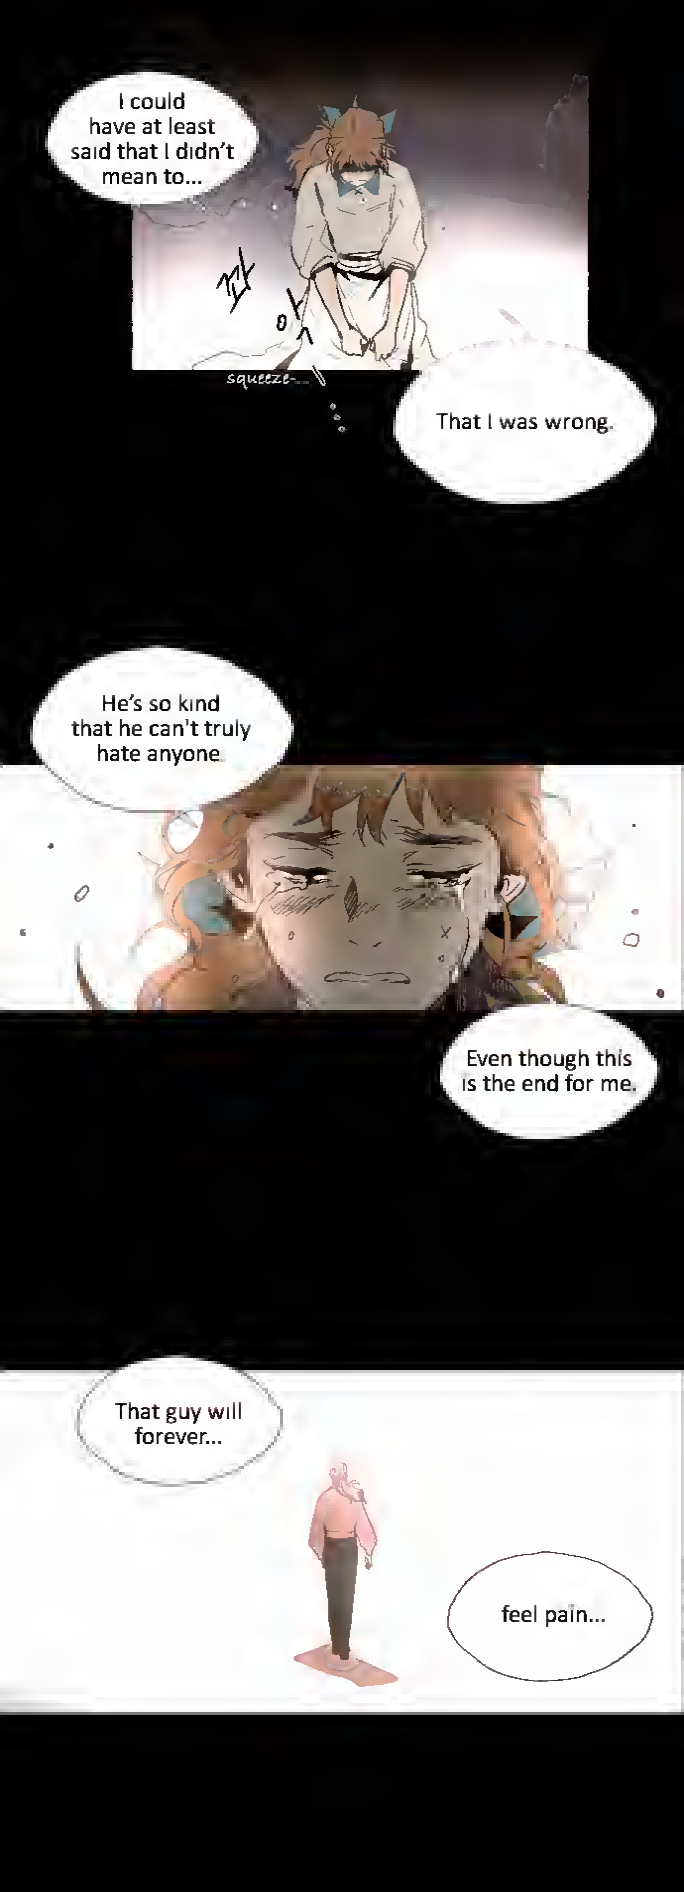
You will be the first to have this happen



Do you not think it's unfair

I am sad.
That I came here dying peacefully of old age.
Even after doing that to Lessa.

I want to apologize
If I had just one more day...
If that were the case...



I could have at least said that I didn't mean to...
squeeze...
That I was wrong.
He's so kind that he can't truly hate anyone.
Even though this is the end for me.
That guy will forever...
feel pain...

tap
I understand why Lord Lessa likes you.

Diane.

Even if it requires great sacrifice.

So the time has come.
Diane...
No, Raynald.

'Emissaries absolutely do not associate with darkness and abide in the light.'
'That is on top of the shoulder of god.'

I'm passing on to you the advice that Lord Ra gave me.
Now the day of atonement at his side draws near.
Even if... this path is too treacherous for a human.
So you came.

Brother.
Do you really have to go this far.
I have to die so he can gather up Raynald.
Whether he wants it... or not...
Are you sure that Lord 'Ra' will do that?
Uriel.
Even Lord Ra sheds tears.

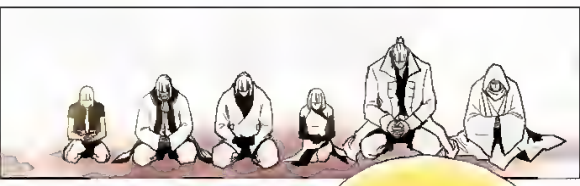
He made the world as his heart desired.

Am I not wrong?

I'll do as you wish

It's been a while.

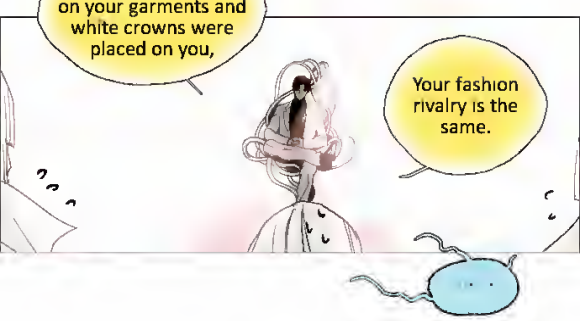
Has it been more than three hundred years since Mikael's and Luciel's disappearances.



That happened because you all have strong egos.

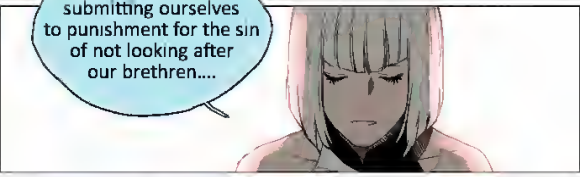
Even though color restrictions on your garments and white crowns were placed on you,

Your fashion rivalry is the same.

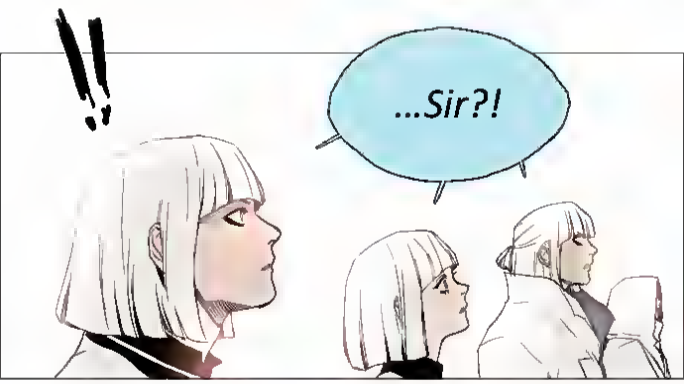


We are ashamed...

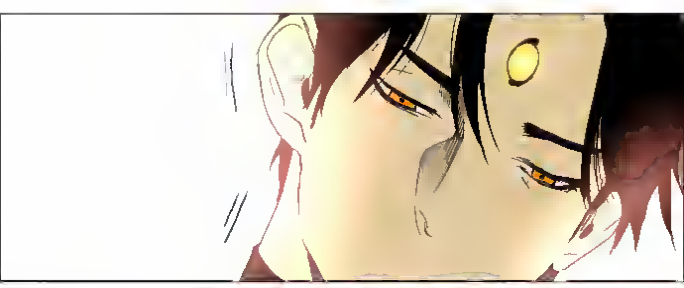
But we are submitting ourselves to punishment for the sin of not looking after our brethren....



Yes.
Now you may take off those white crowns.



!!
...Sir?!



Just like when I created the world, let's go back to the starting point.
Pick up your spears.

The end is nigh.

I started scanslating Lessa just about a year ago at ch 67. I've gotten to work with some great people (You were great, Operation Gstorte Esel) and I've definitely learned a bit since then in terms of translating, editing, and how to even get raws from the site (lol). I know some people definitely didn't like my style when I started, but I hope I've improved since then. It's been my pleasure and honor to be able to finish off Lessa the Crimson Knight.

Moving on to the future. I don't know exactly how long Pogo's break will be before Lessa: Servant of Cosmos starts again, so I don't know where I'll be (esp if I'm done with school) or how far Webtoons.com will have caught up. If they're still like 20+ ch behind and real life allows me to, I'd very much like to continue. Otherwise, I'll gracefully bow out.

For those of you that commented or sent me notes, I've always been so encouraged by your words. I really appreciate you all. I've thoroughly enjoyed and loved Lessa the Crimson Knight and hope you have too. So even though we've reached the end with my translations, let's continue to support Pogo by giving views and comments to her official English translations on Webtoons.com.
